Flowers from bulbous plants are the Heralds of Spring. They proclaim the return of pleasant warm weather and the wealth of flowers for which California is so justly famous. You will join in feeling the glad time next Spring. Prepare your garden now to show then the bright advent of the springtime.

It happens that Morse's Bulbs have given great satisfaction this past year, and many beds of Giant Tulips and of perfect Hyacinths have won great praise. This is because we send out only the best selected, large size bulbs in contrast to the small runts of "auction" bulbs sent out by many eastern catalogue houses. Our bulbs are from the very finest stock there is in France, Japan, Holland and elsewhere. There is solid value in them and taking express rates into consideration, they are cheaper for Pacific Coast gardens than all others.

Order Early

The best time is just as soon as this catalogue reaches you. The bulbs may not have arrived by then, but your order will be given immediate attention, and be filled just as soon as the stock arrives. At the first of the season, there are no sorts sold out, and besides the bulbs flower better when planted early.

New Varieties

We have added to our list of bulbs, again this year, some fine new sorts, which will be found, on reading the following pages.

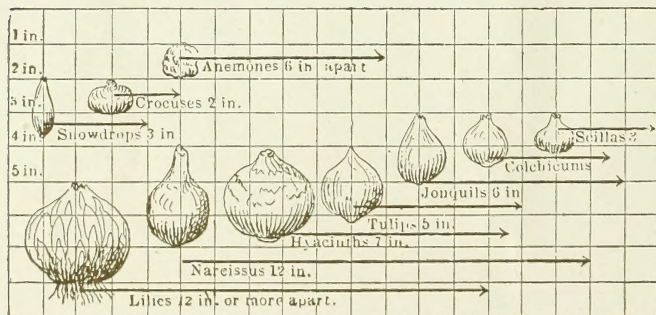

Non-Warranty

Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather, too deep or too shallow planting, slugs, etc., therefore C. C. Morse & Co. give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds, plants, bulbs, etc. they send out, and will be in no way responsible for the crop; if the purchaser does not accept the goods on these terms they are to be returned at once.

Name and Address

Please be sure to write plainly your full name and address, when sending us your order and remittance. Send also the name of the nearest express office, if bulbs are to come that way, when it differs from the Post-office. We send bulbs by express, unless postage for the different sorts as shown in the catalogue, accompanies the order.

GENERAL CULTURE DIRECTIONS

DEPTHS AT WHICH BULBS SHOULD BE PLANTED

The accompanying diagram explains the proper depth to plant bulbs. Outdoor planting should be done early in the fall to secure healthy plants, vigorous foliage and beautiful flowers.

Our Covers

The front cover illustrates six of the popular Narcissus and Daffodils; see pages 5 and 6.
Narcissus Paper White Grandiflora,
Daffodil Double Von Sion
Narcissus Poeticus,

Daffodil, Trumpet Major,
Narcissus, Double Alba Plena Odorata,
Daffodil, Crown Cynosure.

Our back cover is a group of Long Stemmed Darwin Tulips, which are listed on page opposite.

"Morse's Special Tulips" for California

This spring, again, these Tulips have made many a gorgeous bed of brilliant colors, pink, yellow and red. They have given great satisfaction, bearing their large flowers on strong tall stems.

"Morse's Special Tulips"; Long stemmed.

	Per doz.	Per 100
Gesneriana Aurantiaca: orange-red tulip of the fine Gesneriana form.....	\$.40	\$3.00
Gesneriana Lutea: a beautiful golden yellow Gesneriana Tulip—large flowers with long stems.....	.60	4.00
Gesneriana Rosea: rosy carmine with black center, long stems.....	.40	2.50

La Reeve: large handsome flowers of a rosy-buff tone with yellow base. (Received an award of Merit.).....	.75	6.00

There is no scarlet Tulip finer than Gesneriana Major, and with this, come Bouton d'Or for a pure yellow, and Maiden Blush for a pink. For dark rich colors, there are the Darwin Tulips. All these and many other fine ones are included in "Morse's Special Mixed" Tulips, made from named sorts by ourselves. We urge you to beautify your place by a bed of fifty or more of bright Tulips.

The culture is easy; the secret is to have rich soil well drained; use rotted manure or bone meal to give richness and plant the bulb in sand if the ground is heavy and wet. Plant the bulbs as early as possible and about 4 inches deep.

(If Tulips are wanted by mail, add 5c per dozen; 25c per 100 for postage.)

Hyacinths

Hyacinths have a heavy fragrance which is very pleasing; Hyacinths come in all shades of red, blue, pink, yellowish tints and white. Because of their fragrance, their beautiful colors, and their easy culture, they are great favorites in the garden.

For out-of-door growing, plant in November, if possible, although firm bulbs will bloom well if set out much later. The proper depth to plant is shown on the diagram on the inside of the front cover; for bedding effects, set 6 inches apart. The soil should be made rich with a liberal mulching of manure and sand should be added if the soil is heavy. After flowering, allow the leaves to dry up and then lift the bulbs in midsummer; store them in dry soil in a cool dry place and very often they can be used again.

Our named varieties of Hyacinths are all of first size and are fine, large, healthy bulbs and will produce the very finest flowers. (If ordered by mail, add 12c per dozen for postage.)

NAMED VARIETIES OF HYACINTHS

Extra large bulbs for flowering in glasses, and for growing outside.

MIXED COLORS

(If wanted by mail, add 12¢ per doz. for postage.)

These are good strong bulbs and will form good strong flowers. Each year we import thousands of these bulbs for bedding and general culture. We think the single sorts are slightly to be preferred to the double, but that is a matter for your own choice.

SEPARATE COLORS AND SORTS

(If wanted by mail, add 12¢ per doz. for postage.)

We have added this year for the first time Hyacinths of named sorts in intermediate sized bulbs, which we offer below. These bulbs are all of one color for each sort and the advantage this gives for those even pleasing effects in making beds of color is obvious. Now your pinks may be all of one shade, making a perfect bed of even color and your light blues all of one shade, besides which there is the additional strength in the larger sized bulbs.

Daffodils

There is no flower in the early spring that to our mind brings such refreshing inspiration as the **Daffodil**. They are such dainty, bright, clean flowers, and their fragrance so delightful that nothing else compares with them when they first come in their springtime glory.

They are the first to come after the dreariness of winter. None of the Narcissus type is more delightful than the daffodil (both single and double) and we have secured a splendid collection of them as offered below.

Plant Daffodils in October and November out in the open ground in good soil and let them remain from year to year. The bulbous roots will multiply and send up fine long flower stems every spring. Be sure to

keep the ground moist during the growing season if season is dry.

They can also be grown easily in pots, putting 4 or 5 bulbs into a 5-inch pot and keep well watered.

LARGE TRUMPET DAFFODILS

If wanted by mail add 12¢ per doz. for postage.

Albicans ("White Spanish Daffodil"): creamy white perianth with a bold silvery trumpet.

7¢ each; 60¢ per doz.; \$4.00 per 100

Bi-color Grandee: flowers very large with broad pure white petals which overlap each other. The trumpet is bright yellow. Rather dwarf and late flowering.

4¢ each; 35¢ per doz.; \$2.50 per 100

Emperor: one of the grandest daffodils in cultivation; late. The perianth is broad and overlapping and the trumpet is very large and finely formed. Both perianth and trumpet a bright yellow. The stems

are long and it is fine for cutting.

7¢ each; 60¢ per doz.; \$4.00 per 100
Empress (White Wings): the perianth is pure white and the trumpet bright yellow. 7¢ each; 60¢ per doz.; \$4.00 per 100

Golden Spur: a fine fragrant variety with long stems, excellent for cutting. The perianth is yellow and the trumpet is bright golden yellow; early.

7¢ each; 60¢ per doz.; \$4.00 per 100

Henry Irving: one of the older varieties. The perianth has narrow petals of a deep yellow color, the trumpet is of a deep golden yellow and very large.

6¢ each; 50¢ per doz.; \$3.50 per 100
Obvallaris (Tenby Daffodil): a fine hardy flower, the perianth white, trumpet yellow.

5¢ each; 50¢ per doz.; \$4.00 per 100
Princeps Maximus: very early and popular perianth sulphur yellow, trumpet rich yellow.

4¢ each; 30¢ per doz.; \$2.25 per 100
Single Von Sion: a beautiful golden yellow throughout (both perianth and trumpet), large and fine for cutting.

6¢ each; 50¢ per doz.; \$3.50 per 100

Victoria: a new daffodil with broad white perianth and large yellow trumpet. The flower has great substance and keeping qualities. We recommend it as the best yellow and white and are glad to introduce it to this Coast.

7¢ each; 60¢ per doz.; \$4.50 per 100

DOUBLE DAFFODILS

These are all easily grown and are very pretty.

Alba Plena Odorata (the double White Poet's Narcissus or Gardenia Daffodil): sweet scented, very double and late. For outdoor culture only, does not force well.

3¢ each; 25¢ per doz.; \$1.50 per 100

Incomparable (Butter and Eggs): rich yellow and orange, fine for either forcing or outdoors.

4¢ each; 35¢ per doz.; \$2.00 per 100

Orange Phoenix (Eggs and Bacon): very large, double, white, and orange, very beautiful, fine for pot culture.

5¢ each; 35¢ per doz.; \$2.00 per 100

CROWN DAFFODILS (Chalice Cup or Star)

Barril Conspicuus: broad yellow perianth with a short, broad crown edged with orange-scarlet.

3¢ each; 25¢ per doz.; \$1.75 per 100

Cynosure: sulphur yellow perianth; yellow cup, stained with orange, scarlet; very showy, fine for cutting.

3¢ each; 25¢ per doz.; \$1.50 per 100

Sir Watkin: a giant flowering variety, the blossoms sometimes measuring 5½ inches in diameter. The perianth is

sulphur yellow; the cup deep golden yellow. An old variety, still very popular.

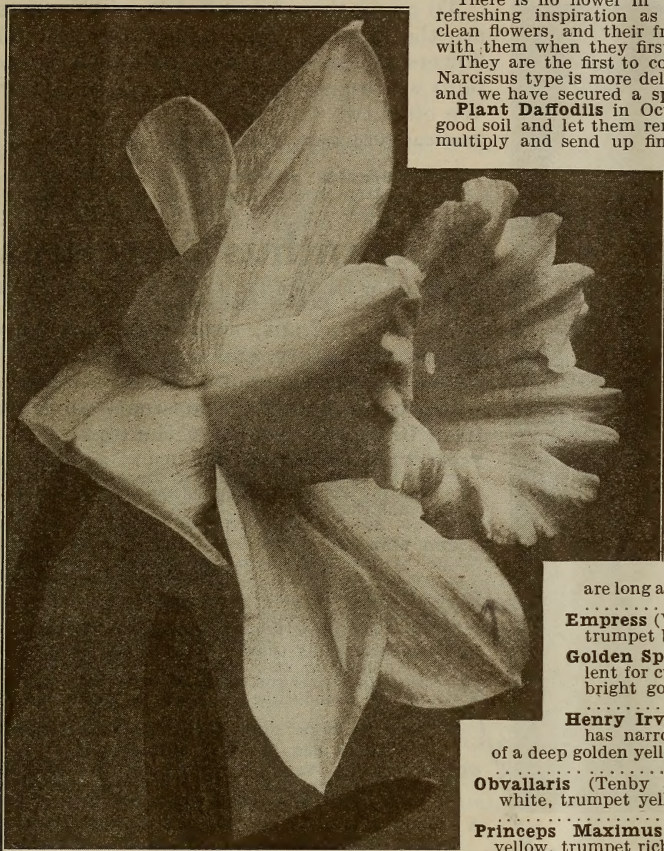

5¢ each; 45¢ per doz.; \$3.00 per 100

Stella: star-shaped, one of the first to bloom; flowers white with yellow cup; large and very free blooming.

3¢ each; 25¢ per doz.; \$1.25 per 100

Mrs. Langtry: pure white perianth, broad and overlapping; cup white edged, bright canary yellow, a fine art flower and very prolific. On account of its low price is largely used for naturalizing.

3¢ each; 30¢ per doz.; \$1.75 per 100

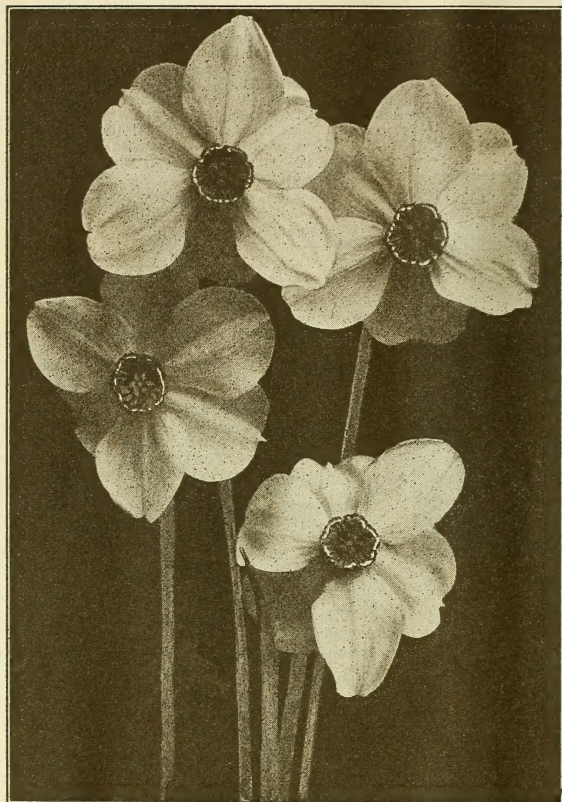

Emperor

The best Single Trumpet Daffodil

Trumpet Major: one of the most popular large, clear yellow varieties (both perianth and trumpet same color). Valuable for bedding or cutting or for forcing. The most easily grown and the hardiest, 4¢ each; 35¢ per doz.; \$2.50 per 100

Poeticus Narcissus

(If wanted by mail add 5¢ per doz.; 25¢ per 100 for postage.)

Poeticus Ornatus Narcissus

Jonquils

These are much prized for their delicious fragrance, their graceful stems and blossoms, their rich golden hue and their fine hardy character. Half a dozen bulbs may be grown in a five-inch pot and forced, while they are easily grown also out of doors.

	Postage 5¢ per dozen.	Per doz.	Per 100

Rugulosus: the largest of the jonquils, rich golden yellow, broad perianth with wrinkled cup.....		.25	1.50

Japanese Iris

(Iris Kaempferi)

By universal consent this species of Iris is given first place. It is one of the finest flowers we have, coming in various tints of blue, lavender, crimson, rose and lilac, as well as the dark blues and violets. The bulbs are perfectly hardy and the plants are very easily grown in any garden where there is good soil and plenty of water. The blossoms vary from 8 to 10 inches in diameter and are borne on long graceful stems, blooming profusely in June and July. Bulbs are ready for delivery some time in December. We have some beautifully colored pictures of these to show at our store.

In separate sorts—lavender, blue, white, claret, purple, etc. 25¢ each; \$2.50 per doz.

In mixed colors, 20¢ each; \$2.00 per doz.
(Bulbs too heavy to mail, postage 15¢ each.)

To many these beautiful Poet's Narcissus are the favorite type. They are certainly flowers of great beauty, with their broad, pure white petals and small yellow centers. We offer two varieties.

Poeticus (Pheasant's Eye): the old time favorite..... 25¢ per doz.; \$1.25 per 100.

Poeticus Ornatus: an earlier flowering and more hardy sort with large flowers of greater substance; an improvement..... 30¢ per doz. \$1.75 per 100.

Polyanthus Narcissus

(If wanted by mail add 12¢ per doz. for postage, and for Chinese lilies 4¢ each.)

A very fragrant, sweet-scented type of the easiest culture, and very early. Can be grown out doors, in pots or in a dish of water with coarse gravel. The stems each bear from 10 to 20 blossoms at the top.

Paper White Grandiflora: beautiful snowy white blossoms with large petals deliciously fragrant, the earliest to bloom. Will blossom out of doors by Christmas if planted in October..... 30¢ per doz.; \$1.75 per 100; \$15.00 per 1000.

Grand Monarch: broad white perianth with primrose cup. A large flower and vigorous grower..... 45¢ per doz.; \$3.00 per 100.

Iris—Fleur-de-Lis

Iris, with its sturdy stems and orchid-like blossoms, comes in several different and very distinct types, each beautiful in itself. They come in a very wide range of tints and colors and are among the most delightful of all bulbous plants.

The bulbs should be planted 2 or 3 inches deep and 6 inches apart, and for best effect should be in beds or groups of twenty-five to one hundred or more bulbs; the greater the number the finer the effect.

A mulching of coarse manure or straw will facilitate the production of fine long stems and large blossoms.

After flowering, the bulbs may either be lifted or allowed to remain for another season. The varieties contained in our collection are the finest and most distinct in cultivation.

Spanish Iris

Both Spanish Iris and English Iris are needed in the same garden to give a continuous period or Iris blooms for six weeks. The Spanish sort is the earlier, and also smaller variety; but it is the favorite, many thousands being planted each year. The price is so low that they can be afforded in quantity.

- Alex von Humboldt: clear blue.
- Belle Chinoise: very fine yellow.
- Blanche Superbe: large white flower with a suggestion of pale porcelain shading; one of the best and earliest.
- British Queen: purest white.
- Cajanus: pure yellow; large flower, very tall, fine for cutting.
- Chrysolora: golden yellow, the best of its color in cultivation.
- Darling: bright blue.
- Gold Cup: darkest bronze, largest variety, very fine.
- Gold of California: pure golden yellow.
- Formosa: the finest of dark blue.
- Ida: deep yellow, large flower.
- Louise: French gray and white, with golden blotch, very beautiful.
- Philomena: fine large pale blue.
- Reconnaissance: bronze and orange blended.
- Snowball: pure white, shading to sapphire at base, with conspicuous golden blotch.
- Splendens: deep blue.
- Thunderbolt: dark bronze.
- William I: fine yellow.

Susiana Mourning Iris

(Prices are post-paid.)
This is a peculiarly beautiful variety, and quite distinct from all other types, and must be seen to be appreciated. It is a combination of silvery gray and dark chocolate and black, grows one foot high and blooms in May. The flowers are very large, being 6 inches across 20¢ each; \$2.00 per doz.

English Iris

English Iris

This beautiful variety grows on tall stout stems and makes a fine florist's flower. The stem is 3 feet and surmounted by most delicately colored flowers 4 inches across. Both English and Spanish Iris are bulbous plants, the leaves dying down in the summer. English Iris is taller than the Spanish and has larger flowers. It blooms several weeks later, and care must be used to see that the plants have plenty of water when coming into flower, for this is the season of year when our gardens are just beginning to be dry.

Lily Auratum Rubro Vittatum

These were raised out of doors and were 10 inches each across. All Auratum Lilies are of same size and habit but with different coloring in the center of the petals.

Lilies

Lilies are matchless amongst hardy plants for beauty of form and variety of color in the garden. They commence flowering in June, and with the various species, maintain a continuous and unbroken succession of bloom until autumn. Their stately habit, rich and varied colored flowers, often deliciously fragrant, and of easy culture, render them so distinct from all other hardy plants that no collection however select, should be without a few of the choicer sorts.

Candidum and Harrisii are ready for delivery in September, and the others in October and November.

If wanted by mail add 3¢ each, 25¢ per doz., for postage.
Auratum (Gold-banded Lily): one of the finest and most popular of the hardy garden lilies. The blossoms are composed of six large petals of delicate ivory white, studded with spots with a bright golden band running through the center of each petal. The flowers when fully expanded are nearly a foot in diameter, are very fragrant and bloom from June to October. 15¢ and 20¢ each, and \$1.25 and \$2.00 per dozen, according to size.

Auratum Pictum: similar in form to the Auratum, but tipped with crimson at the ends of the yellow rays, 25¢ each; \$2.50 per doz.

Auratum Platyphyllum: similar to Auratum, but larger and finer in all respects. Especially noted for its broad lustrous leaves which give double attraction. The petals are studded with crimson chocolate spots. 25¢ each; \$2.50 per doz.

Auratum Rubro Vittatum: one of the finest of all lilies. Its crimson band running through the middle of the petal is so broad that the petals appear to be crimson margined with white; very showy and handsome. 60¢ each

Belladonna Lily: see Amaryllis Belladonna.

Elegans Atrosanguinea: a dark blood-red lily of handsome appearance. Elegans lilies are all borne erect on a stem about 2½ feet tall. 20¢ each; \$2.00 per doz.

Elegans, Incomparable: the richest red known in lilies, a deep crimson slightly spotted with black. Flowers large and freely borne. 15¢ each; \$1.50 per doz.

Elegans, Orange: a very early, flowering lily, doing well in any location, about 2 feet high, flowers are orange in color. 20¢ each; \$1.75 per doz.

Lilies—Continued

CANDIDUM (Annunciation Lily; Madonna Lily; St. Joseph's Lily): the flowers are pure snow-white and very fragrant, borne on long stems. It is a valuable variety for forcing; and is the **best white lily** to plant out of doors, never failing to bloom well. 15¢ each; \$1.25 per doz.
(Postage 3¢ each; 25¢ per doz. additional.)

Harrisii (The Bermuda Easter Lily): the flowers are trumpet-shaped, pure white, gracefully formed and delightfully fragrant. This is the lily so much grown by florists for Easter, on account of its early flowering habit and abundance of bloom. 15¢ each; \$1.50 per doz.

Must be planted early. Order in September

Henryi (The Yellow Speciosum): a rare lily from China, hardy and free flowering. Flowers are a rich apricot yellow slightly spotted with brown. 75¢ each

Humboldt Magnificum: a remarkably fine variety attaining the height of 5 feet and bearing profusely large flowers of golden yellow, spotted with purple. 50¢ each

Krameri: a beautiful large pink lily, distinct from all others. The flowers shade lighter and are very fragrant. 20¢ each; \$2.00 per doz.

Leopard Lily: the native Tiger Lily found growing in the mountains in all parts of California; height 3 to 4 feet. Flowers yellow orange with dark spots. 10¢ each; \$1.00 per doz.

Longiflorum Giganteum: a fine type of Japanese Easter lily, blooming about two weeks later than Multiflorum. 15¢ each; \$1.25 per doz.; and 25¢ each; \$2.00 per doz.

Longiflorum Multiflorum: an early flowering type of the Japanese Easter lily. Pure white trumpet-shaped flowers. Splendid for growing in pots and for outdoor planting. 15¢ each; \$1.00 per doz.; extra large bulbs, 20¢ each; \$1.75 per doz.

Philippine: a new, rare, hardy lily, grows two feet high and bears snow-white flowers with long trumpet, ten inches long. Blooms in August. Bulbs ready in January.
Post-paid 25¢ each; \$2.50 per doz.

Rubellum: of dwarf habit, bearing several beautiful rose-pink flowers. Come into flower early. It does best in sandy loam well drained. 20¢ each; \$2.00 per doz

Speciosum Album: one of the most beautiful and easily grown lilies we have. The flowers are of immense size and pure white. Plants grow from 2 to 4 feet high. 15¢ each; \$1.50 per doz.

Speciosum Rubrum: this is the tall light red lily often seen in florists windows. It is perfectly hardy in the open garden and is a strong and vigorous grower. Plant in well drained soil in a partially shaded place. The lily blooms in July and August, having a spike 3 to 4 feet tall with bright lilies of a light crimson and white color; the petals recurve. 15¢ each; \$1.25 per doz.

Speciosum Rubrum Magnificum: this variety is much more crimson in color than the ordinary Rubrum and is heavily spotted. 15¢ each; \$1.25 per doz.

Tigrinum (Tiger lily): fine showy blossoms, brilliant orange-red spotted with black; 3 to 5 feet high, and blooms in August. The Tiger Lily is one of the best for out of doors, for it is perfectly hardy and will last for years in the garden, each year sending up its black and orange flower spike. 15¢ each; \$1.25 per doz.

Tigrinum Flora Plena (Double Tiger Lily): similar to Tigrinum, but bearing flowers that are double. 15¢ each; \$1.50 per doz.

Washington Lily: a grand variety from Oregon and Washington; flowers are large and fragrant; opens white and turns to purple and lilac. They bloom freely in the summer; 3 to 5 feet high. 25¢ each; \$2.50 per doz.

White Calla Lily (Calla Ethiopica): the well known and popular white calla. According to size. 75¢ and \$1.00 per doz

Yellow Calla Lily (Calla Elliottiana): is the only true yellow-flowered Calla in existence. The foliage is dark green with a number of translucent white spots, and the flowers a bright yellow. A very handsome sort. According to size 25¢ to 35¢ each; \$2.50 to \$3.50 per doz.

Miscellaneous Bulbs and Flowering Roots

AGAPANTHUS, UMBELLATUS (The Blue African Lily)
(Too heavy to mail)

The old favorite, flowers bright blue borne in clusters of 20 to 30. The flower stalks frequently attain a height of 3 feet, the flowers opening in succession for a long period during the summer and autumn. Ready for November delivery. 25¢ each; \$2.50 per doz.

Agapanthus Albus: a new white variety, very beautiful. 35¢ each; \$3.50 per doz.

ALLIUM, AUREUM

(Postage 5¢ per doz.)

Molly or Golden Allium: one of our most showy border plants; perfectly hardy, bearing large umbels of golden yellow flowers in June. A very old favorite, and fine for naturalizing in the garden where it forms large clumps. Height, 1 foot. 15¢ per doz.; \$1.00 per 100

AMARYLLIS

(Postage 15¢ per bulb)

Ornamental plants with large, fragrant, beautifully colored flowers. Frequent disturbance of the roots should be avoided, as this will prevent free flowering. Sends up a flower stalk without leaves in August, to a height of 2½ feet, very fragrant.

Belladonna Major: beautiful soft rose. 15¢ each; \$1.50 per doz.

Formosissima: charming dark crimson. 10¢ each; \$1.00 per doz.

APIOS TUBEROSA

Sweet Peas

The months of NOVEMBER AND DECEMBER ARE THE BEST TIME TO SOW SWEET PEA SEED. It is best to order your Sweet Pea Seed early and sow it when the first rains come. Then you get blossoms in May and June, when they are large and splendid. They do very well, however, sown any time during the winter or spring.

ETHEL ROOSEVELT

This is a grand new Spencer variety of striking beauty. It is large, very wavy and of the finest form, with long stems and uniformly 4 blossoms to the stem. It is a soft primrose or pale yellow with delicately formed splashes of bluish and very light crimson. There is just enough of the pink splashes to give the color a warmth of golden rose and a bunch of the blossoms is very effective. In packets only, at 25¢ each.

EARLY FLOWERING OR CHRISTMAS SWEET PEAS.

This class of Sweet Peas will frequently come into bloom in 8 to 10 weeks after sowing the seed. If sown in October, one can have good blossoms by Christmas, and if sown at intervals Sweet Peas can be had nearly the year round.

Morse's Prize Strain Pansies
About 2/3 natural size

Morse's Superb Pansies

All our Pansy seed is obtained from the most noted European specialists. Pansies thrive best in a moist, shady location and in rich, loamy soil. Seed should be sown in the autumn for early spring blossoms, or can be sown early in the year for good flowers later in the spring. The blossoms are usually larger in the spring and again in the fall, and while they bloom freely all summer, the blossoms are small during the hot months. While the plants carry over well with a little covering during the winter, it is best to plant new seed each year.

EXTRA FINE GIANT-FLOWERED PANSIES
We offer in the following colors and varieties, these pansies, which are different from the named sorts listed. They are some of the separate sorts out of our famous "Prize Strain Mixture," and are truly giant in size.
Pure White,
White with Dark Center,
Hortense Red: old rose color,
Pure Yellow,
Yellow with Dark Center,
Madame Perret: wine color and white,
Emperor William: dark blue,
Lord Beaconsfield, purple and lavender,
Faust: pure black,
20¢ per packet; the collection of 9 finest sorts, \$1.35.

SPLENDID MIXTURES

MORSE'S PRIZE STRAIN. This is a mixture of all the giant-flowered varieties, all the plain colors, faced sorts, ruffled edged, and rare sorts; also the varieties exquisitely marbled, striped and blotched. The seed is saved from Germany's most famous pansy gardens from EXHIBITION FLOWERS. PRIZE STRAIN pansies are wonderfully beautiful in every way, and are the very best there are.
Pkt. of 500 seeds, 50¢
Morse's Imperial German Strains Mixed: a superfine mixture of the choicest German varieties in all colors. Pkt., 25¢.
Bugnot Mixed: a circular, ruffled, and five-petaled type, with soft, blended colors and tints, veined on the margins and with a dark blotch at the base of each petal. One of the finest varieties. Pkt., 25¢.
Cassier's Giant, Mixed: a splendid mixture of various shades and markings. The blossoms are perfectly round and are blotched at the base of 3 to 5 of the petals. Pkt., 25¢.
Giant Trimardeau, Mixed: the largest flowering type of pansies, called the French strain. The top petals are larger than the 3 lower ones and are beautifully marked. Pkt., 15¢; Oz., \$2.00.

Giant Odier or Prize Blotched, Mixed: a large flowered type, with round blossoms. The petals are all blotched at the base and distinctly margined on the edge. Pkt., 25¢.
Giant Masterpiece: these new pansies have a most beautiful combination of rich velvety coloring and attractive wavy or ruffled petals. This wavy effect gives a graceful appearance rarely seen in pansies, and while they are really very large, they appear larger on this account. Pkt., 25¢.

Lawn Grasses

All of our Lawn Grasses are from the very best re-cleaned seed. To make a good lawn the soil cannot be too well prepared. It does not need to be so very rich since a long growth of grass is not so necessary as a thick root growth. Most soil needs, however, some barnyard manure spaded into it, and a covering of half an inch of loam. After it has been well worked it should be watered and allowed to rest two or three weeks so that the weeds can start and be hoed. A second watering and hoeing two weeks later would be well if the time can be spared. The soil should be well rolled before planting the seed since the land needs to be firm and compact. Sow the seed with a sieve if possible, after which cover with a light sprinkling of sandy loam, also put on with a sieve. The seed may, however, be thrown on broadcast and raked in. A lawn may be sown in California any time in the year if there is plenty of water available.

What grass makes the best lawn? This question is often asked us and our experience has shown that for San Francisco and sandy soils Pacific Rye Grass is best for a straight lawn, and our Golden Gate Park Mixture for a mixed lawn. For all other soils Kentucky Blue Grass makes the best straight lawn and Perennial Rye Grass (preferably the fine-leaved "Pacific Rye") next; while for a good durable summer and winter lawn Morse's California Lawn Mixture has no equal. For extra damp places Morse's Velvet Lawn Mixture is recommended. We also make up special mixtures for shady places which give satisfaction where ordinary grasses will not grow.

One pound of grass seed is required for 250 square feet of lawn. Use half that quantity for renovating old or worn out lawns and apply our **Special Lawn Fertilizer**, which will greatly invigorate the growth. 10 lbs., 65c; 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., \$3.50.

Pacific Rye Grass: A new lawn grass never before used in California, and sold only by us. It is very vigorous, hardy and long-lived and does well in sandy soils. It is similar to Australian Rye Grass but is much finer leaved and much more long-lived. Per lb., 35c, post-paid; by express or freight, per lb., 25c; 10 lbs., \$2.00; 100 lbs., \$17.50.

Our Golden Gate Park Lawn Mixture: We especially recommend this mixture for those requiring a quick-growing, thick, sturdy lawn which remains green all winter, as well as other seasons of the year; especially for sandy soils. This variety contains a small proportion of white clover, just enough to make it a thick mat. Per lb., 45c, post-paid, or by express or freight, lb., 35c; 100 lbs., \$30.00.

Kentucky Blue Grass: Fancy or double extra clean. Many prefer to have their lawns of Kentucky Blue Grass, because of its fine dark color and because of its dense growing habit; it makes a perfect lawn and each year we sell quantities of seed to public parks and cemeteries. While our seed is double extra cleaned there always will be a few weeds impossible to get out, because of the great lightness of the seed. It is therefore important to get out of the ground as many native weeds as possible by watering the ground, waiting and hoeing, as described above. Per lb., 45c, post-paid; or by express or freight, lb., 35c; 100 lbs., \$30.00.

Australian Rye Grass: A very vigorous, quick-growing lawn grass, but a little coarse. Very satisfactory for lawns in San Francisco. Per lb., 25c; post-paid, or by express or freight, 1 lb., 15c; 10 lbs., \$1.50; 100 lbs., \$10.00.

Morse's California Lawn Mixture: A mixture of more than half a dozen good perennial lawn grasses, all of the heaviest re-cleaned seed. It gives the very best results in thick, deep green, sturdy lawns which are green both summer and winter. Makes a very satisfactory lawn. Per lb., 45c, post-paid, or by express or freight, lb., 35c; 100 lbs., \$30.00.

Morse's Velvet Lawn Mixture: A combination of soft, deep green grasses, which form a thick mat, especially in the summer. Is easy to cut and easy to grow in good, moist, rich soil, and is especially recommended for adobe soils. Price 45c per lb., post-paid, or by express or freight, per lb., 35c; 100 lbs. \$30.00.

White Clover: Of dwarf habit with creeping stems, rooting at the joints, on which account it makes an excellent turf that stands constant tramping. Planted for a lawn either alone or in mixture with grass seed. Price 45c per lb., post-paid, or by express or freight, 35c per lb.; 100 lbs., \$30.00.

The Nursery Building at Haywards.

Our Nursery Department

We have recently purchased a tract of land near Haywards, Alameda County, and have there erected buildings, lath sheds, and other equipment for conducting our nursery business. Here we have growing fruit trees and ornamental trees and shrubs. The picture above is of the packing sheds.

In Oakland, on Glen Ave., opposite Eleth, which is just one block south from the Piedmont Station of the Key Route trains, we have a salesyard and greenhouses where a full assortment of fruit trees, berries, ornamental trees and shrubs, palms, climbing plants, etc., may be inspected and purchased. We hope you will call and if unable, that you will send for our new 1911 catalogue.

Our Annual Catalogue for 1911

Early in December our yearly catalogue will appear. It has descriptions of all varieties of **Vegetables and Flowers, Fruit Trees, Ornamental Trees and Shrubs, Berries, Tools, etc.**, also directions for planting and much miscellaneous information for the gardener in California. We want everyone to have access to our Catalogue and shall be glad to send it to all upon request. Those who mailed us an order last year will receive a copy without the bother of writing for it, but all others should send a request before December.

Gardeners

We have many applications from experienced gardeners for positions of all kinds. We should be glad if those needing such services would let us know and we will try to see that the places are well filled. In communicating we would suggest giving wages paid, kind of work, accommodations, or other perquisites.

Our Aim and Our Goods

We aim to give the best service, and full value and more, for every dollar expended with us. We do the largest wholesale business on the Pacific Coast—our trade on one item of lawn grass seed being over three carloads in a year; then we have the product of our own 2,500 acres of seed farms to draw from. For **fresh seed of good vitality, C. C. Morse & Co. are the headquarters**, and are unexcelled by anyone; and on that basis we respectfully solicit your orders.

The front cover of this Catalogue illustrates six of the popular Narcissus and Daffodils, for descriptions of which see pages 5 and 6.

*NARCISSUS, Paper White Grandiflora,
DAFFODIL, Double Von Sion,
NARCISSUS, Poeticus,*

*DAFFODIL, Trumpet Major,
NARCISSUS, Double Alba Plena Odorata,
DAFFODIL, Crown Cynosure.*
